

Kohlar

Grouting Gun

Color

Blue

Main Properties and Uses

- For filling joints in walls clad with natural stone, manufactured stone, marble, or brick
- Especially suitable for chiseled stone (e.g., Jerusalem stone).
- For filling joints of various sizes
- Enables clean and precise application.
- For use with a screwdriver or drill
- Lightweight and easy to use
- Faster application compared to manual work
- Easy to clean – with running water only

Instructions for Use

- Assemble the device and mount it onto a drill/screwdriver, following the user manual included with the product.
- Prepare the “Termokir JF 920” (grout) mixture according to the product sheet instructions.
- Fill the device’s funnel with the prepared mixture.
- Ensure the drill/screwdriver is set to rotate clockwise (right).
- Fill the joints evenly. Fill the vertical joints from bottom to top, and the horizontal joints perpendicular to the wall.
- Smooth the material with a damp sponge.

Warranty

The company’s warranty is limited to the quality of the materials only and does not replace the contractor’s responsibility. The contractor must verify the suitability of the product and system for their needs, compatibility with other products it may contact, and proper execution of the work. We reserve the right to update or change data and recommendations without prior notice. It is the contractor’s responsibility to stay up to date on the latest information.
